Technical Skills

Languages & Tools: JavaScript, TypeScript, Version Control(Git), Axios, Web accessibility.

Frontend: Next.js, React.js, Redux, Tailwind CSS, HTML5/CSS3.

Backend: Node.js, Express.js, MongoDB, JWT, REST APIs.

Experience

Software Developer

October 2025 to present

Almuqet Systems

- Contributed to a production-level **unified chat system** integrating **Telegram** and **WhatsApp**, improving cross-platform communication efficiency by **30%**.
- Developed and refactored **reusable React components**, modernizing legacy **jQuery** code and optimizing state management with **Redux Toolkit** to reduce re-renders by **30%**.
- Enhanced **web accessibility**, responsiveness, and frontend performance, resulting in a smoother experience for **1000+ active users**.

Software Developer Intern

August 2025 to October

Almuqet Systems

2025

- Assisted in the UI development of a **unified chat platform** integrating **Telegram** and **WhatsApp**, gaining hands-on experience in building scalable production systems.
- Worked closely with senior developers to integrate RESTful APIs for message synchronization, file handling, and chat management.
- Improved **frontend accessibility and performance** by optimizing scrolling behavior, dynamic rendering, and responsiveness across devices.

Projects

Discover Kashmir (Travel Blog & Exploration Platform)

[Github](#) — [Live Link](#)

- Built a full-stack web app to showcase Kashmir's culture and landscapes using **Next.js** and the **MERN stack**.
- Implemented a custom **CMS**, **authentication**, and **role based access** with seamless dynamic content updates.
- Enhanced performance and visibility through **server-side rendering (SSR)** and **SEO optimization**.

Motivator AI (AI-Powered Motivation Generator)

[Github](#) — [Live Link](#)

- Developed an AI-driven web app using **Next.js**, **Tailwind CSS**, and the **OpenAI API** to generate motivational responses based on user input.
- Designed a clean, responsive UI with optimized prompt handling for real-time, uplifting message generation.

Expiry Track (Expiry tracking and inventory management platform)

[Github](#) — [Live Link](#)

- Built an expiry tracking and inventory management platform using **Next.js**, **Express.js**, and **MongoDB** to streamline product monitoring and reduce manual oversight.
- Implemented automated **expiry notifications** and intuitive dashboards for efficient inventory control and timely product management.

Education

Cluster University Srinagar

Mar 2020 – Nov 2023

BS in Information Technology

- CGPA: 8.3/10
